

**Spartanburg School District Three
District Policy Addendum to
Online Coursework Application**

Beyond the standard requirements for enrollment, Spartanburg School District Three students and parents must acknowledge in writing their understanding of the following policies:

1. High school credits earned through online coursework will contribute toward a student's cumulative grade point average (GPA) and class rank.
2. High school students who enroll full-time in online coursework in their junior or senior year will be ineligible for graduating class honors, including Junior Marshal, Salutatorian, and Valedictorian.
3. Enrollment in online coursework will not be permitted in lieu of a placement in the Spartanburg County Alternative School (SCAS.)
4. All tests, exams and other major assessments will be completed by the student at a district location and will be proctored by district staff.
5. Enrollment in online courses beyond the district's priorities will require a tuition payment by the parent/guardian.
6. Students must complete a comparable amount and level of coursework in an online course as would be required by the instructor in the equivalent course offered at Broome High School and by the same due dates to receive full credit. Each assignment and test not completed by the due dates established in the online course will receive a failing grade. Assignments and tests not completed by the end of each 9-week grading period will receive a failing grade.

Our signatures document that we understand fully the policies listed above.
